Dear Mr. Wilson:

The amendment to your notice to conduct mining related operations to include unpatented mining claims, UMC serial numbers 353723 and 356221, and to expand the area of operations to the NE/4, Sec. 24, and the SW/4 Sec. 25, T. 23 S., R. 9 W., SLBM, was received on May 1, 1995, and has been accepted by this office. Your Notice case file number will remain UTU-070718. Please use this number in any future correspondence concerning this notice and amendment(s).

If you change your operation from what is described in your notice, you are required to contact this office prior to the change. If your operation extends for more than one year, please advise this office on the status of your mining related activity on the anniversary date of your amendment.

Enclosed is a copy of the Conditions of Acceptance for BLM Mining Notices, stipulated by the Richfield District, Warm Springs Resource Area. Please follow these guidelines as they pertain to your operation.

A copy of your amendment has been sent to the Utah Division of Oil, Gas and Mining (UDOGM); therefore, you will not have to file this amendment with them. A copy of your amendment has also been sent to the Utah Department of Environmental Quality, Division of Water Quality (DWQ). DWQ should contact you concerning any permits you may need, however their failure to do so does not absolve you from responsibility for obtaining the same.

As required by 43 CFR 3809, Surface Management Regulations, reasonable measures must be taken to prevent unnecessary or undue degradation of public lands and reclamation is required at the earliest feasible time. Please notify this office upon completion of operations and reclamation so an inspection may be conducted on the site. Reclamation under this notice is required to conform to the standards of the Utah Mined Land Reclamation Act.

Acceptance of your amendment will not now, nor in the future, serve as a determination of the validity nor ownership of any mining claim included under your notice.

If you have any questions regarding this letter, please feel free to contact me at (801) 743-6811. Thank you for submitting your amendment.

Sincerely,

Rody Cox  
Geologist
